For the Future:

1. Data Literacy Program: Planning began on a workshop/program on data literacy that would be open to other institutions. Currently have two lightning talks approved. The idea was left to pursue in the next year.
2. Scheduling issues with other LAUC-I events (brown bags, in particular) did occur this year. A suggestion was made to create an internal shared calendar of LAUC-I events, but the best mechanism to prevent scheduling conflicts is still under consideration. See LAUC-I Executive Board Meeting notes of 2018-02-12.
