Brief Statement of Goals:

As a participant in LAUC-I for the past 3 years, I have had the opportunity to observe my more experienced colleagues work toward a common goal: to advise the Office of the Chancellor and Library Administration on professional governance matters of concern to librarians at UCI. If given the opportunity to serve as LAUC-I Secretary, I will contribute my expertise and insight to further that goal. I would specifically like to create a membership database and streamline the LAUC-I Web Page updating process (e.g. dynamically created pages and/or content management software.) I will take the opportunity to advance LAUC's mission and encourage greater LAUC-I participation throughout the librarian ranks.
