SCALL
Southern California Depository Librarians
And more

UC Activities

UCGILS (Govt. Information bibliographers)
UC Resource Liaisons for GPO

LAUC-I

Academic Librarianship
Board, Member at Large
Professional Development

Brief Statement of Goals:

I have continually supported the role of LAUC-I in recruiting people to the professional and mentoring those individuals as well as new librarians in the UC system. Currently I mentor both a prospective librarian and a new librarian. I would actively support developing these programs even further.

Professional development is always a topic of discussion and action. The state's financial situation might make normal professional development more difficult and costly to the individual. I would support maintaining funds for present activities and also develop new, closer to home activities useful to many of us.

New projects and issues always arise. I will work with the Board to gather and reflect the views of the membership in developing any new programs or policies.
