

The LAUC-I Executive Board and Program Committee invite you to attend the next Lunch with LAUC-I: a discussion on Second Life (the popular internet based virtual world) and libraries. Mitchell Brown and Andrew Harris will explain how Second Life works, why it is so popular, and most importantly, how it can be used in education and instruction. Please bring your questions for them.

Andrew Harris' participation in this program once again brings UCI student experience to the discussion. Andrew is a senior, majoring in English Literature, as well as a Student Assistant 4 in circulation at Grunigen Medical Library. He will begin working on his MLIS this fall.
