Library Review Committee

Stephen Clancy

VITA: I have been with the UCI Libraries since 1981, first at the old Biomedical Library and then at the UCI Science Library since 1994. During my tenure, I have seen the campus and the Libraries grow in both size and reputation.

Statement of Interest: I believe that it is the responsibility of the Library Review Committee to assure that all aspects of a librarian's career under consideration are judged fairly and accurately during Academic Review. If elected to the LRC, I will do my best to assure that this is in fact accomplished.

John Sisson

Statement of Interest

I would like to serve LAUC-I on the LRC as my contribution towards making it a stronger organization. The LRC is a lot of work but allows us to learn so much about the gifts of the people we work with. We are lucky to have peer review as part of our process and we must use that power carefully. I have been involved with LAUC-I at many levels and look forward to serving my colleagues.
