

Kristine Ferry

### Statement of Goals for the Position of Interest

Our profession faces bigger challenges now than ever, but also affords great opportunities. I believe LAUC-I is uniquely positioned to offer the programs, events and support to get its members ready for the future, whether it is at UCI or another organization. My experience here at UCI, gained through two very different positions, has given me the opportunity to work closely with librarians at different levels from all divisions. This has given me a broad perspective of the UCI Libraries and our issues and challenges as librarians. I look forward to working with my colleagues to create an agenda that will help improve individual skills that will ripple out to our work environment and even the work we do outside of UCI.

### Brief Biographical Sketch

Kristine Ferry is currently the Director of Web Services at UC Irvine Libraries. She first joined the Libraries as the Research Librarian for Business in 2006. Prior to working at UCI, Kristine was Digital Resources Librarian at California State University, Los Angeles and Advanced Technologies Librarian at the Kresge Library at the University of Michigan.
